Pumping in Edmonton Area Refineries

Canada Pump and Power is providing Industrial Marine Services in Redwater, Strathcona County, and Fort Saskatchewan from our facility in Redwater, Alberta.

- We employ a skilled, experienced crew, and have a large complement of Industrial Pumps and Support Equipment on hand.
- We have full time safety officers, approved safe work practices and procedures, and approvals by ISNetworld, PICS, CanQual, and ACSA (COR).

Our motto is “We say what we are going to do, we do what we said we would do, and we check to make sure that we did it”.

Our most recent project included providing and installing 12 large diesel pumps ranging in size from 4” to 18” with explosion proof float controls and audio visual alarms. Our rig-in crews fused 1,800 feet of HDPE piping and set up hundreds of feet of hoses, dozens of fitting and a road crossing.

If we can assist you with your Dive, Pump, Barge, or Dredge, needs, email us any time at sales@canadapumpandpower.com or call us at [1-877-898-3494](tel:1-877-898-3494). You can check out our line of pumps and other industrial marine equipment at www.mightypumps.com.
