Tailings Ponds in Brazil

Jeremy, CEO of our company, has been helping dredge and dewater tailings ponds in Canada's Oil Sands over the last twenty-five years.

Recently, we have engaged Ana Habib as a Project Lead for Latin America. Last week Jeremy and Ana visited Brazil and were asked by two large Brazilian Mining Corporations to help dredge and dewater their tailings ponds to meet new government regulations.

We are submitting proposals in June 2017! Vamos Brasil!

If we can help you with any of your marine industrial needs, call us anytime at 1-780-922-1178 or email us at Sales@MightyPumps.com.
