Canada Pump and Power builds 40 new pumps to keep up with industry's huge demands!

Since our inception in January 2010, Canada Pump & Power has grown to over 100 personnel and a fleet of over 500 pieces of marine industrial equipment including pumps, barges, dredges, trucks, dozers, draglines, and excavators.

Our production facility is adding new pumping systems, fluid road crossings, barge units, and dredging equipment to our fleet every day.

Our Mighty Pumps range from 500 gpm to 30,000 gpm with discharge heads from 100 feet to 700 feet.

We also stock miles of polyethylene pipes, galvanized steel pipes, and hoses suitable for pumping operations.

Our goal is to have what you need in stock and available when you call, whether it is for a short term rental or a sale.

If we can assist you with your Dive, Pump, Barge, Dredge (or Pipe) needs, email us any time at sales@canadapumpandpower.com or call us at 1-877-898-3494. You can check out our line of pumps and other industrial marine equipment at www.mightypumps.com.
