## Commercial Diving Team in Action

Our Marine Operations Group includes a Commercial Diving Team led by Chris Wilson. We have the best and most modern equipment available for completing underwater tasks, but what sets our crew apart is the trade and professional experience that we bring to the job site.

The Canada Pump and Power Commercial Diving Team are also Engineers, Pressure Welders, Carpenters, or Mechanics. Whether you need contaminated liquid entry, confined space entry, or conventional underwater work performed, a CPP crew can get to the work location safely due to our diving expertise and be trusted to perform the work reliably because of our topside experience and qualifications.

If we can assist you with your Dive, Pump, Barge, or Dredge needs, email us any time at [sales@canadapumpandpower.com](mailto:sales@canadapumpandpower.com) or call us at 1-877-898-3494. You can check out our line of pumps and other industrial marine equipment at [www.mightypumps.com](http://www.mightypumps.com).
