HDPE Fusion Services!

Canada Pump & Power (CPP) is Fort McMurray's best option for High Density Polyethylene (HDPE) fusion!

We own a rental fleet of three trailer mounted McElroy fusion machines to fuse 4" to 36" pipe. Each of our machines is set up as a package in its own enclosed fusion trailer to protect the equipment and keep everything together.

We offer the best possible service and fusion quality assurance testing – with equipment and personnel local to Fort McMurray.

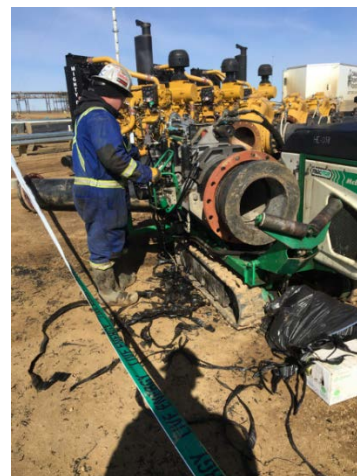

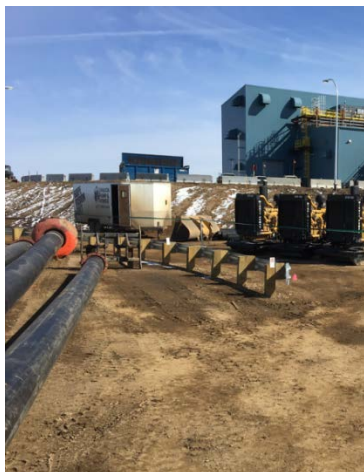

We also stock HDPE pipe and fittings in Fort McMurray.

We employ a McElroy Factory certified mechanic and over 20 McElroy certified operators in Alberta!

To ensure the best training for our staff and the fusion courses we run for Clients, our training director is one of a very limited number of factory trained McElroy certified fusion instructors.

McElroy is the plastic pipe fusion leader in North America by a wide margin.

If we can help you with any of your HDPE fusion needs, call us anytime at 1-780-922-1178 or email us at Sales@MightyPumps.com.
