The Monthly Newsletter of Canada Pump and Power

**PUMP • BARGE • DREDGE**

December 2010

*Happy Holidays!*

*All of us at Canada Pump and Power join in saying  
Thank you and wishing you a very Merry Christmas  
and a prosperous New Year.*

## New Modular Barges & Tiller Dredges!

Canada Pump and Power (CPP) has completed production of four more Modular Barge units and two more Hydraulic Tiller Dredges! Each barge is 14' long x 12' wide and lightweight (3800lbs) for easy transportation. Barges are designed to lock together to make platforms of various sizes according to the job. Each barge is engineered to carry up to 7.8 tons. Supported by 24 independent HDPE floating chambers, we eliminate the chance of a catastrophic failure from a chamber leak. Barges are equipped with handrails and ramps to keep our operators safe.

Our newest Hydraulic Tiller Dredge is a system made of an LT18B landscape tiller, equipped with a 6NNT hydraulic pump, powered by a C9 hydraulic power pack. This dredge is modified to dig and pump solids underwater with a customized hydraulic attachment that easily lowers the dredge into the pond.

Call us at your convenience at 1-877-898-3494 or email us at [sales@albertapumps.com](mailto:sales@albertapumps.com).
