Feature Product: Fluid Road Crossings

Did you know that Canada Pump and Power manufactures, rents and sells **Fluid Road Crossings**?

Fluid Road Crossings are used when a temporary pipeline needs to cross a road, without blocking vehicular traffic. The full capacity of a 12" pipe is spread over the entire width of the crossing. Pipe flow is not restricted, but the mat is only 3" thick! No excavating or groundwork required.

We have units that are 12" and 16" in diameter, with lengths of 14', 20', and 30'.

For more information or to explore our wide range of products and customized equipment, please visit us at: www.mightypumps.com.

Fluid Road Crossings

Tested to 600 PSI
Sturdy, Stackable
Now available up
to 30' wide

Crossable with any legal
load. It has the same
flow as a 12" pipe.
