

# Mighty Pumps – Industrial Strength Pumping Systems

\*Size pump to center of the curve. Operating on the edges of the curve is less efficient.

\*Due to Canada Pump and Power's continuous efforts to improve its products, specifications are subject to change without notice.

## MIGHTY INDUSTRIAL STRENGTH PUMPS

FAMILY CURVE – VARIOUS PUMPS

### Features

- High efficiency – burns less fuel.
- Remotely monitored allowing for any computer to track in real-time.
- Automatic Priming – pumps suck air and liquid at the same time. Venturi suction from engine compressor. Priming system isolation with an in-line ¼ turn valve for flooded suction applications.
- Quiet Protective Containment. Residential muffler and easily removable acoustic paneled container.
- Oil bath immersion for dry running.
- Variable applications including liquids, sludge, and liquids with solids up to 5.25" (133 mm) diameter.
- Cycloseal®, heavy cast volutes, and heavy construction stress proof SAE 1144 stainless steel shaft to ensure increased durability, reliability, and life.
- Industrial grade, off-road trailers. Full steel construction with automatic hydraulic brakes and internal fuel tank.
- Fuel tanks hold 99 gallons/exempt from TDG legislation.
- 2 year, 2,000 hour warranty.
- Backed by CAT, Cornell, and Canada Pump and Power.
