

WHO we are

CPP was founded in 2010 in Alberta. Our personnel have decades of experience in the Marine Industry. Our team of professionals' includes engineers, tradesmen, supervisors, operators and certified safety officers.

WHAT we do

Our Operations Group provides services to a select group of clients. We are committed to client satisfaction and continuous growth, focusing on four areas:

- ▶ Pumping
- ▶ Barging
- ▶ Dredging
- ▶ Industrial Diving

Our Mighty Pumps Production Group manufactures pumping systems, dredging equipment, and portable barge units. We are original equipment manufacturers for the industry leaders including Caterpillar and the Cornell Pump Company.

HOW we do business

We take great care with the safety of our employees and our environment. CPP follows a Total Quality Approach. This means that we have a written procedure of checks and balances to ensure that:

- ▶ We say what we are going to do
- ▶ We do what we said we would do
- ▶ We check to ensure that we did it

DIVE ▶

- Commercial and Deep Water Diving
- Marine Engineering
- Marine Construction
- Arctic & Cold Water Diving
- Confined and Contaminated Entry
- Underwater Welding & Cutting
- Geophysical Marine Surveys
- Pipe Penetrations
- Underwater Salvage, Blasting, Jetting and Dredging

PUMP ▶

- Emergency Spill Response
- Bypass Pumping
- Sludge and Slurry Pumping
- High Head Pumping
- High Volume Pumping
- Well Point Dewatering
- Industrial Plant Support
- Pump, Hose and Pipe Rentals and Sales
- Pumping System Engineering
- Pump Operation and Project Management

BARGE ▶

- Road Transportable Barge Units
- Excavator Barges and Backhoe Barges
- Drilling Barges
- Work Platforms
- New Barge Construction

DREDGE ▶

- Suction and Cutter Head Dredging
- Dragline and Excavator Dredging
- Remote Tank and Pond Dredging
- Waterway Maintenance
- Lake Restoration
- Water Treatment
- Vegetation Control
- Tailings Pond Cleaning
- Mine Production

EQUIPMENT SAFETY

Jet Prime Industrial Strength Pumps

- Pumps suck in air and liquid at the same time
- Quiet containers protect the pump from the environment and the environment from the pump
- Our pumps feature massive fuel tank skids and industrial grade off-road trailers
- Supported by Caterpillar and the Cornell Pump Company
- Remote monitoring 24/7 on the internet or a smartphone with live updates that include: pump's global position, discharge pressure, pump RPM, engine data and a maintenance log and schedule
- 2 year, 2000 hour warranty

We believe that the health, safety and security of our employees, contractors, subcontractors, clients and the surrounding communities are critical to our company's success. We maintain a safety program committed to the prevention of occupational illness and injury. Our goal is zero accidents and injuries, maintaining a safe and healthy work environment. Canada Pump and Power is certified by the CanQual Network, ISNetworld and PICS, and has a Certificate of Recognition from the Government of Alberta.

Modular Barges

- Connect like building blocks
- Multiple sizes and configurations to support up to one million kilograms

Dredges

- Our LWT Pit Hog Remote Auger Dredge can be completely controlled in all dimensions right from the shore
- Our Skyline Excavator and Draglines can dig out ponds up to 1200 feet across without requiring any manned entry into or over the pond
- Our Hydraulic Tiller Dredge digs with a CAT LT13B Tiller specially modified to dig and pump solids underwater
- Our Automatic Dredge is programmed to complete a specific profile and carry out its underwater mission unattended
- Our Cutter Head Dredges are capable of moving heavy solids in large volumes
