Introducing Buffalo Mighty Pumps!

Canada Pump and Power is proud to introduce our new line of **Buffalo Mighty Pumps (BMP)** that are built locally in Fort McMurray, Alberta. Buffalo Mighty Pumps are designed to efficiently move large volumes of water over long distances. Each pumping system includes a Cornell pump end, John Deere engine and an automated Jet-Priming System all mounted on an industrial strength trailer. Buffalo Mighty Pumps are a robust, lightweight design making them easy to move, setup and maintain. Our new line of Buffalo Mighty Pumps are offered in 4, 6 and 8 inch models that are now available at our Production and Repair Facility located at 285

MacDonald Crescent, Fort McMurray, AB. We showcased our BMP6 model at this year's CRE Synergy Event earlier this month.

Canada Pump and Power is committed to being the best and easiest solution for all industrial marine services and products. Please give us a call at 1-780-922-1178 or email CPP at sales@canadapumpandpower.com for any industrial marine products or service solutions!
