Temporary Pumping Solutions!

Our sympathies go out to all of the businesses and individuals that have been negatively affected by COVID-19. As an essential service, Canada Pump and Power continues to operate and support Clients with new and ongoing DIVE - PUMP - BARGE- DREDGE solutions.

Canada Pump and Power has recently completed the installation of another temporary pumping solution. This pumping system consists of seven DT18 Mighty Pumps installed on one large floating platform which consists of several interconnecting modular barge units. The temporary pumping system is capable of supplying more than 382,000 m³ per day - that is about 150 Olympic swimming pools per day!

Canada Pump and Power has years of experience providing, installing and operating small and large scale pumping solutions across a variety of sectors and applications. We have equipment and crews ready and available for your planned or emergency projects!

Canada Pump and Power is committed to being the best and easiest solution for all industrial marine services and products. Please give us a call at 1-780-922-1178 or email CPP at sales@canadapumpandpower.com for any industrial marine products or service solutions!
